5. Click "While Using the App"

App explanation: "Websites you visit may request your location."

Precise Location ⬤

Allows apps to use your specific location. With this setting off, apps can only determine your approximate location.

WHEN CLOCKING IN:

Allow "Safari" to use your location?
Websites you visit may request your location.

6. Click "While Using the App"

Allow Once

Allow While Using App

"garciaindustries.us" would like to use your current location.
This website will use your precise location because Safari currently has access to your precise location.

7. Click "Allow"

Don't Allow   **Allow**
